A Multicenter, Prospective, Randomized Study on Endosonographic Fine Needle Aspiration of Pancreatic Cystic Lesions Using Standard and Nitinol Needles: Phase I Results

A Pilot Study of EUS-Guided Through-the-Needle Biopsy (EUS-Tnbi) of Solid Masses

A Pilot Study of Contrast Enhanced Harmonic Endosonography (Ch_eus) Using Sonovue in the Evaluation of Suspected Pancreatobiliary and Peri-Ampullary Malignancies

Could Quantitative and Qualitative EUS-Elastography Results Be Affected by the Compression Rate and the Diameter of the Region of Interest?

Can the Endosonographic Examination Predict the Grading of Pancreatic Adenocarcinoma? Characterization of Benign and Malignant Lesions Using Quantification of Solid Debris in Acute Pancreatitis - a Comparative Study of EUS vs. CT for Prediction of Intervention

Comparison of Fenestrated Versus Standard Needles for Endoscopic Ultrasound-Guided Biopsy of Solid Pancreatic Lesions. Correlation Between Pre-Test Risk Score and EUS FNA Findings in Pancreatic Ductal Carcinoma

Cyst Wall Puncture During EUS-FNA May Increase the Diagnostic Yield of Pancreatic Cysts: a New Technique Using Agerose Cell Block Microhistology.

Cytology Evaluation of Fluid in Benign Appearing Pancreatic Cysts Is Unnecessary and Costly.

Detection of Omental Metastases by EUS FNA: Impact on CT/MRI Staging and Resectability Detection of Portal Vein (PV) Circulating Tumor Cells (CTCs) in Pancreatic Cancer (PC) Patients Obtained by EUS Guided Pv Sampling, a Safety and Feasibility Trial

Diagnosis and Ki-67 Grading of Pancreatic Neuroendocrine Tumors (pNETs): Role and Accuracy of Endoscopic Ultrasound-Fine Needle Aspiration (EUS-FNA)

Diagnosis of Pancreatic Adenocarcinoma: a Review of 723 Patients With Solid Pancreatic Neoplasms At a Single Center.

Diagnostic Accuracy of EUS-FNA for Pancreatic Solid Lesion With Conventional Needle Using Slow Pull Technique: a Prospective Study

Diagnostic Yield of EUS-Guided FNA and EUS-Guided FNB in Patients With Suspected Hilar Cholangiocarcinoma

Does Endoscopic Ultrasound Improve Outcome in Surveillance of Non-Resected Presumed Branch-Duct Intraductal Papillary Mucinous Neoplasms? EUS and S-MRCP Findings in Asymptomatic Subjects With Chronic Pancreatic Hyperenzymazemia
In Vivo Characterization of Pancreatic Cystic Tumors by Needle-Based Confocal LASER Endomicroscopy (nCLE). Proposal of a Comprehensive Classification.

International Multicenter Comparative Trial of EUS-Guided Biliary Drainage Done by Hepatogastroscopy vs. Choledochoduodenostomy Approaches in 150 Patients

Interobserver Agreement of Contrast-Enhanced Harmonic Endoscopic Ultrasonography and Endoscopic Ultrasound Elastography in the Evaluation of Solid Pancreatic Lesions

KI-67 Cytological Index Can Distinguish Low Grade From High Grade Pancreatic Neuroendocrine Tumors: a Comparative Cyto-Histological Study of 53 Cases.

Management Strategy of Pancreatic Cyst Patients Based on Integrated Molecular Pathology in 492 Patients: the Final Results of a Multicenter Study.

Molecular Analysis of EUS-FNA of the Pancreas: Is There a Better Needle?

Multi-Center Randomized Trial Comparing the 19G and 25G Needles for EUS-Guided FNA of Solid Pancreatic Mass Lesions

Outcomes of EUS-Guided Transmural Gallbladder Drainage With a Metal Stent in Patients With Chronic Cholecystitis Unsuitable for Cholecystectomy

Pancreatic Cyst Growth Rate Greater Than 1mm/Month Predicts the Presence of Adenocarcinoma

Pancreatic Duct Dilatation Should Be Investigated With Endoscopic Ultrasound If Computerised Tomography Fails to Identify a Lesion

Pancreatic Cystic Lesions Referred for Surgery Based on EUS Criteria: Correlation With Surgical Pathology.

Pilot Study Comparing Hybrid vs. Wet vs. Dry Suction Techniques for EUS-FNA of Solid Lesions

Prospective Multicenter Randomized Controlled Trial of Histological Diagnostic Yield Comparing 25G EUS-FNA Needles With and Without a Core Trap in Patients With Solid Pancreatic Masses

Prospective Randomized Blind Controlled Trial of Capillary EUS-FNA vs. Suction EUS-FNA for the Diagnosis of Solid Tumors

Randomized Trial Comparing 22 and 25 Gauge Core Biopsy Needles for EUS-FNA of Solid Pancreatic and Peripancreatic Mass

Role of Endoscopic Ultrasound (EUS) in Screening for Ampullary Lesions Following Conventional Imaging

Role of Endoscopic Ultrasound Evaluation of Dilated Common Bile Duct When Cross-Sectional Imaging Is Inconclusive

Smart Atlas for Supporting the Interpretation of Needle-Based Confocal LASER Endomicroscopy (nCLE) of Pancreatic Cysts: First Classification Results of a Computer-Aided Diagnosis Software Based on Image Recognition

The Contrast Enhanced Endoscopic Ultrasound Increases the Diagnostic Accuracy of the Fine Needle Aspiration in Pancreatic Masses

The 25G FNA Needle: Good for Onsite but Poor for Offsite Evaluation? Results of a Randomized Trial

The Clinical Impact of Immediate on-Site Cytopathology Evaluation During Endoscopic Ultrasound-Guided Fine Needle Aspiration (EUS-FNA) of Pancreatic Mass: Final Results of a Multicenter, Prospective Randomized Controlled Trial

The Efficacy of EUS Elastography and FNA in Excluding Cancer in Solid Pancreatic Masses : a Prospective Single Blind Study

The Importance of CE-EUS(Contrast Enhanced EUS) for the Detection of Malignancy Related Findings in Reconsideration of New International Consensus Guideline for IPMN/ MCN.

Use of Real Time EUS Elastography in Targeting EUS-FNA Biopsy of Suspicious Pancreatic Masses: a Pilot Study

Usefulness of EUS on Differentiation Between Solid-Pseudopapillary Neoplasms and Neuroendocrine Neoplasms of the Pancreas

Usefulness of Contrast-Enhanced Endoscopic Ultrasound for Assessing Mural Nodules in Intraductal Papillary Mucinous Neoplasms

Utility of Endoscopic Ultrasound Fine Needle Aspiration K67 Indices in Pancreatic Neuroendocrine Tumors

Utility of Endoscopic Ultrasonography in the Detection of Microlithiasis in Patients With No Obvious Obstruction of Common Bile Duct

Utility of Novel Analytical Approach of CE-EUS (Contrast-Enhanced EUS) Named “Inflow Time Mapping” in the Diagnosis of Pancreatic Diseases

Endoscopic Ultrasound / Endoscopy: EUS Stomach

A Paired, Prospective, Single-Blind Study of the Diagnostic Efficacy of Two Endoscopic Tissue Biopsy Regimens for Diagnosis of Gastrointestinal Stromal Tumor (GIST)

Basket-Like Hypervascularization in Doppler Endoscopic Ultrasonography-a Highly Specific Criterion for the Detection of a Gastrointestinal Stromal Tumor

Efficacy of Endoscopic Ultrasonography Compared to Conventional Endoscopy in Decision Making of Early Gastric Cancer Treatment

The Evaluation of the Cytosquamous Injection Treatment of Gastric Varices With Endosonography

Endoscopic Ultrasound / Endoscopy: EUS Therapeutic

One-Step’ EUS-Guided Drainage of Pelvic Collections: a Single-Center Experience

A Comparison of Endoscopic Versus Surgical Management of Pancreatic Fluid Collections: a Single Tertiary Care Center Experience

A Novel Method of EUS-Guided Hepaticogastrostomy to Prevent Stent Dysfunction

A Prospective Randomized Trial on Hepaticogastrostomy or Choledocho-Duodenostomy to Distal Malignant Obstruction After Failed ERCP
Outcomes of Radiofrequency Ablation in Patients With Barrett's Intramucosal Carcinoma Are Compromised to Those With Other Histologic Subsets of Be.

Outcomes of Recurrent Intestinal Metaplasia Following Successful Endotherapy of Barrett's Esophagus Associated Dysplasia Patients Treated With Radiofrequency Ablation for Intramucosal Carcinoma Arising in Barrett's Esophagus Have Similar Outcomes to Those With High Grade Dysplasia: Data From the United Kingdom Registry

Recurrence After Successful Radiofrequency Ablation for Barrett's Related Neoplasia Is More Likely in Males: Data From the United Kingdom Patient Registry

Recurrence of Intestinal Metaplasia Is Rare Following Endoscopic Eradication Therapy (EET) of Barrett's Esophagus Coupled With Effective Reflux Control: a Single Center Prospective Durability Study

Salvage Cryotherapy Is A Safe and Effective Therapy for Patients WHO Have Persistent or Recurrent Dysplasia After Radiofrequency Ablation for Dysplastic Barrett's Esophagus. Sub-Squamous Columnar Neoplasia After Successful Radiofrequency Ablation for Barrett's Related Neoplasia Is Rare but Highlights Requirement for Long Term Follow up in These Patients

Treatment Outcomes for Barrett's Esophagus Related Neoplasia Have Improved Over Time With Changes in Endoscopic Practice: Five Year Experience From the First Five Hundred Patients in the United Kingdom Registry

Treatment of Dysplastic Barrett's Esophagus With Radiofrequency Ablation Combined With Endoscopic Mucosal Resection and/or Argon Plasma Coagulation Produces Excellent Median Term Outcome With Minimal Complications.

Esophageal Neoplasia Among High Risk Patients Endoscopic Therapy of T1b Esophageal Adenocarcinoma

Esophageal Stent Fixation Using a Novel Endoscopic Suturing Device

Granular Cell Tumour of the Oesophagus - a Review of 161 Cases

High Grade Dysplasia Aising in Barrett's Esophagus Can Be Accurately Diagnosed Using Fourier Transform Infrared (FTIR) Spectroscopy

In Vivo Endocytoscopy for Superficial Esophageal Squamous Cell Carcinoma: a Multicenter Prospective Trial

Is It Justified to Ablate Flat Type Esophageal Squamous Cell Cancer? an Analysis of Endoscopic Submucosal Dissection Specimens of Lesions Meeting the Selection Criteria of Radiofrequency Studies.

Late Stage Diagnosis of Esophageal Adenocarcinoma (EAC) in Veterans - Could Screening Be Effective?

Long-Term Outcomes of Endoscopic Resection for Early-Stage Esophageal Squamous Cell Neoplasms: a Multicenter Prospective Study

Multidisciplinary Treatment of T1a Adenocarcinoma in Barrett's Esophagus: A Contempory Comparison of Endoscopic and Surgical Treatment

Narrow-Band Imaging Versus Lugol Chromoendoscopy for Determining the Lateral Extent of Superficial Esophageal Squamous Cell Carcinoma

Paclitaxel-Eluting Covered Metal Stents Versus Covered Metal Stents for Esophageal Squamous Carcinoma in Rabbits

Palliative Cystoablisation for Patients With Unresectable Esophageal Adenocarcinoma Placement of Self Expandable Metal Stent (SEMS) in Esophageal Cancer: Potential for Complications and Reinterventions Without Improvement in Nutritional Status

Predictive Factors for Residual Esophageal Cancer in Patient's With Deep Margin Positive Endoscopic Resections

Proton Radiotherapy in Setting of Endoscopic Stents: Is There a Risk of Significant Dose Perturbation?

Systematic Endoscopic Approach for the Diagnosis of Early Esophageal Cancer in Patients With Head and Neck Cancer

The Use of Spray Cryotherapy in the Management of Esophageal Carcinoma

The Feasibility of Ultrathin Endoscope Guided Technique for Esophageal Stent Placement Without Fluoroscopy.

The Prophylactic Efficacy of Locoregional Steroid Injection for Stricture Formation Caused by Endoscopic Submucosal Dissection for Superficial Esophageal Cancer Using a Propensity Score Matching Analysis

Treatment Allocation in Early Stage Esophageal Adenocarcinoma: the National Incidence Rates and Predictors of Lymph Node Involvement.

Esophagus / Endoscopy: Esophageal neoplasia Comparative Study of Hybrid Technique Versus Fluoroscopic Technique for Insertion of Self Expanding Metallic Stents (SEMS) in Non Traversable Oesophageal Tumors

Compare Result of Definite Chemoradiation Combine With Stent Insertion and Stent Alone in Advanced Esophageal Carcinoma: a Single Institute, Case Series Study, Thailand

Comparison of Multi-Band Mucosectomy and Endoscopic Submucosal Dissection for the Treatment of Early Esophageal Cancer and Precancerous Lesions

Correlation Between Endoscopic Ultrasonography (EUS) T Staging and Endoscopic Mucosal Resection (EMR) Findings in Barrett's With High-grade Dysplasia (HGD) and Cancer

Do Endoscopic Forceps Biopsies of Visible Lesions Predict Histological Findings on Endoscopic Mucosal Resection (EMR) in Barrett’s Esophagus (BE) With Dysplasia and Early Esophageal Adenocarcinoma (EAC)?

Endomicroscopy-Assisted Endoscopic Resection of Barrett’s Esophagus-Associated Neoplasm: A Prospective Study Involving 37 Consecutive Patients

Endoscopic Surveillance Comparing Narrow Band Imaging (NBI) Against Lugol Chromoendoscopy for Detection of Synchronous Superficial Squamous

Clinical Outcomes of Full Myotomy Versus Partial Myotomy in PerOral Endoscopic Myotomy for Achalasia Patients

Clinical and Procedural Predictors of Refractory Anastomotic and Radiation-Induced Strictures

Clinical Results of 500 POEM Cases for Esophageal Achalasia and Related Diseases in a Single Institute

Efficacy of Polyglycolic Acid and Fibrin Glue to Prevent Esophageal Stricture After Endoscopic Submucosal Dissection in an Animal Model

Endoscopic Mechanical Displacement of the Esophagus During Atrial Fibrillation Catheter Ablation

Esophageal Episiotomy - a Combination of Needle Knife Cautery and Balloon Dilatation - Improves the Outcome of Highly Refractory and Recurrent Benign Esophageal Strictures

Factors Predicting Outcome of Bougienage Dilatation in Complex Corrosive Esophageal Strictures

Flexible Endoscopic Management of Zenker's Diverticulum: Characteristics and Outcomes of 52 Cases

High Definition-ISCAN Virtual Chromoendoscopy Has High Sensitivity and Specificity for Histologically Proven Diagnosis of Eosinophilic Esophagitis

Immediate Combined Endoscopic and Radiographic Evaluation of the Esophagus After Balloon Dilatation for Achalasia Is Sufficient to Detect Leaks in Asymptomatic Patients

In Situ Ice-Cold Water Cooling to Ease the Removal of Self-Expanding Nitinol Stents Long-Term Follow-up and Incidence of HPV in the Esophageal Squamous Papilloma

Mitomycin C Application Improves the Outcome of Highly Refractory and Recurrent Benign Esophageal Strictures

Per-Oral Endoscopic Myotomy for Achalasia: Outcomes of a Large Prospective Series

PerOral Endoscopic Myotomy (POEM) Is Equivalent to Laparoscopic Heller Myotomy (LHM) for the Treatment of Achalasia

PerOral Endoscopic Myotomy: Intra-Procedural Challenges and Remedies

Prediction of Clinical Outcome of PerOral Endoscopic Myotomy (POEM) in Achalasia Patients

Presentation, Diagnosis and Management of Esophageal Lichen Planas

Real-Time Evaluation of Oesophageal Capsule Endoscopy in Variceal Screening and Surveillance - a Pilot Prospective Study

Treatment of Zenker's Diverticulum With Flexible Endoscope: Results and Technical Aspects

Tethered Capsule Endomicroscopy for Eosinophilic Esophagitis

The Significance of POEM-Related Adverse Events Based on the Early Clinical Experience

The Correlation of Timed Barium Esophagogram and Esophageal Transit Scintigraphy in Achalasia

TransNasal Endoscopic Evaluation of Swallowing: Functional Esophagoscopy Using an Ultrasound Video Endoscope at Neurogenic Dysphagia

Tractus Biopsy Using Forward-Viewing Endoscopy for Diagnosis of Upper Gastrointestinal Subepithelial Tumors
What Is the Diagnostic Yield of Upper Endoscopy in Symptomatic Patients With Systemic Sclerosis?

**Esophagus / Endoscopy: Gastroesophageal reflux (GERD)**

Long-term Follow-up After Endoscopic Treatment of GERD With the Medigus SRS™ Endoscopic Stapling Device

A Novel Endoscopic Treatment for GERD Without Hiatal Hernia -Cardiac Mucosal Reduction (CMR)

A Novel Endoscopic Treatment "ESD-G" for PPI-Refractory GERD -a Fundoplication by Endoscopic Submucosal Dissection (ESD for GERD)-

Cascade Stomach Is a Risk Factor for Reflux Esophagitis With the New Endoscopic Classification of Cascade Stomach.

Detecting pH Using Nanosensors: a Proof-of-Concept Study for Detection and Monitoring GERD

Diagnostic Yield of Upper Endoscopy in the Initial Evaluation of Esophageal Dysphagia

Spastic Motility Disorders of the Esophagus: Cause or Effect?

The Mechanism of Action of Radiofrequency Energy Delivery (RFed) to the Gastroesophageal Junction (GEJ) May Be Ideal for Upright Refluxers: a Retrospective Cohort Study

Therapeutic Strategy for the Overlap Between GERD and Functional Dyspepsia -Study of Additive Effect of Acotiamide on Rabeprazole

Utility of NBI Magnifying Endoscopy in Patients With Reflux Disease- the Asian Perspective.

**Esophagus / Endoscopy: Outcomes Studies (Esophagus)**

Clinical and Psychosocial Variables Associated With Behavioral Intentions to Undergo Surveillance Endoscopy

Clinical Usefulness of Self-Expandable Metal Stents for Malignant Esophageal Obstruction: a Comparative Study Between Extrinsic and Intrinsic Compression

Esophageal Foreign Bodies: Efficacy & Safety of Glucagon and Endoscopy in 603 Consecutive Patients

Is an Acid Secretion Inhibitor Needed for Healing of Ulcers Following Esophageal Submucosal Dissection? - a Randomized Prospective Study Comparing the PPI Treatment Group With the Untreated Group -

Risk Factors for Postoperative Stricture After Endoscopic Submucosal Dissection for Superficial Esophageal Carcinoma

Self-Expanding Metal Stents for Post Surgical Esophageal Leaks: a Single-Center Experience

Steroid Use for Prevention of Strictures Post Endoscopic Submucosal Dissection: a Meta-Analysis

The Clinical Outcome of Endoscopic Submucosal Dissection for Superficial Esophageal Cancer in Patients With Liver Cirrhosis.

The Efficacy of the "Clip With the Line" Method During Esophageal Endoscopic Submucosal Dissection Against Superficial Esophageal Cancer -a Retrospective Study-

The Clinical Outcome of Asymptomatic Esophageal Candidiasis Detected in Immunocompetent Individuals.

**Esophagus / Endoscopy: Variceal Bleeding**

Elective Endotracheal Intubation Prior to Emergent EGD in Patients With Suspected Variceal Hemorrhage: an Evaluation of Outcome and Complications

Clinical Features of Esophageal-Gastric Varices and Efficacy of Endoscopic Injection Sclerosis in Non-Gil-Bertiortic Portal Hypertension

Endoscopic Ultrasound (EUS)-Guided Coil Embolization in the Management of Esophagogastric and Ectopic Varices

Long-Term Results of Radiologically Guided Endoscopic Injection Sclerotherapy for Esophageal Variceal Bleeding: a 31-Year Experience

**Gastrointestinal Oncology / Colon Cancer**

Screening

A Prospective, Randomized Trial of Adenoma Miss Rates At Colonoscopy Associated With 3-Minute vs. 6-Minute Withdrawal Time

Evaluation of a 2-Gene (Igf1 and Bcl2) DNA Blood Test for Detection of Colorectal Cancer

The Comparative Cost-Effectiveness of Faecal Immunochromatographic Tests vs. Screening Colonoscopy in the Detection of Neoplastic Lesions

**Pancreatic Disorders / Pancreatic Cancer: Risk Factors, Biomarkers & Diagnosis**

A Stool-Based MicroRNA and DNA Marker Panel for the Detection of Pancreatic Cancer

Higher Pancreatic Cancer Risk Following New Onset of Diabetes Mellitus in Non-Obese Patients With Chronic Pancreatitis

Obesity Is a Risk Factor for Pancreatic Precancerous Lesions

**Pancreatic Disorders / Pancreatic Genetics, Physiology, Cell Biology & Pathobiology**

P120catenin Facilitates Pancreatic Regeneration and Monoeucytic Lymphocele Accelerates KRAS-Driven Carcinogenesis and Metastasis

**Pediatric Endoscopy / Endoscopy: Pediatric**

A Comparative Study Between Two Biopsy Techniques in the Assessment of Histological Adequacy in Pediatric Endoscopic Biopsy Samples

A Series of Detergent Pol Ingestions in Toddlers -ampullary Adenoma in Children With Familial Adenomatous Polyposis

Cholecystocholecystectomy Acquired Lesion That Can Be Diagnosed and Treated Endoscopically in Children

Comparison of Colonoscopy Preparations in a Pediatric Population

Comparison of Findings Between Video Capsule Endoscopy (VCE) and Double Balloon Endoscopy (DBE) in Pediatric Patients

Correlation of Mayo Endoscopic Score With the Pediatric Ulcerative Colitis Activity Index (Pucai).

Diagnostic Yield of Colonoscopy in Children With Chronic Abdominal Pain

Duodenitis in Children Undergoing Upper Endoscopy

Emergency Endoscopy in the Management of Ingested Foreign Bodies and Food Impaction in Children: a Ten Years Experience

Endoscopic Assessment of Mucosal Activity in Pediatric Ulcerative Colitis: Are Current Methods Reliable?

Endoscopic Repair of Neodymium Magnet Perforation

Endoscopic Retrograde Cholangiopancreatography in Children: Trends Within the United States From 2000 to 2009

Endoscopic Treatment of IBD Related strictures in Pediatric Patients

Endoscopic Biliary Decompression of a Non-Functioning Ventricle-Gallbladder Shunt in a Child With Refractory Hydrocephalus

Endoscopic Electrocautery Incisional Therapy As a Treatment for Refractory Pediatric Esophageal Strictures

Endoscopic Ultrasound (EUS): a Proposed Role in Pediatric Eosinophilic Esophagitis (EoE)

Endoscopy Following Pediatric Intestinal Transplant: a 23 Year Single Center Experience

Endotracheal Intubation Versus Laryngeal Mask Airway for Esophagastroduodenoscopy in Children: a Prospective, Randomized, Controlled Trial

Esophageal Stenting in Children With Recurrent Benign Stenosis.

Evaluation of Endoscopic Visual Characteristics in Children With Eosinophilic Esophagitis

Evaluation of One-Day Polyethylene Glycol Powder Solution (MiraLAX®) For Colonoscopy in Children

Factors Affecting Ileum Intubation in Pediatric Patients Undergoing Colonoscopy.

Gastric and Duodenal Biopsies in Pediatric Eosinophilic Esophagitis

Gastrointestinal Endoscopy Competency Assessment Tool for Pediatric Colonoscopy: (Giecat-Kids): a Multi-Center Validation Study

Intestinal Anastomotic Ulcers in Children With Short Bowel Syndrome and Anemia Detected by Capsule Endoscopy

Jejunal Varices Diagnosed by Capsule Endoscopy in Patients With Post Liver Transplant Portal Hypertension

Long-Term Outcomes of PerOral Endoscopic Myotomy for Achalasia in Pediatric Patients: a Prospective Single-Center Study

Management of Refractory Esophageal Stenosis in Pediatric Age

Management of Portal Hypertension in Children: a Retrospective Italian Multicenter Study

One Day Colonoscopy Preparation Using Split Dosing Is Effective and Safe in Children

Pediatric Capsule Endoscopy: Clinically Important Findings, Monitoring Response to Therapy in Crohn's Disease, Achieving 0% Capsule Retention Rate and Endoscopic Placement Techniques

Pediatric Gastroenterologists Performing ERCP: a US Survey

Percutaneous Endoscopic Gastrostomy (PEG) Tubes Can Be Safely Placed in Unintubated, Medically Complicated Infants in the Neonatal Intensive Care Unit

Post-ERCAP Pancreatitis in Children and Adolescents

Retrospective Analysis Ofaccidental Ingestion of Button Cells in Pediatric Population and Endoscopic Management

Single Balloon Small Bowel Enteroscopy in Children: a Single Center Review of 37 Cases

Single Center Review of Wireless Capsule Endoscopy
The Safety and Efficacy of Pediatric Colonoscopy Performed by Adult Gastroenterologists
The Management of Patients Requiring ERCP at Pediatric Centers: a US Survey
The Diagnostic Yield of Upper Endoscopy in Children: Do Symptoms Matter?
The Role of Duodenal Bulb Biopsies in the Diagnosis of Celiac Disease
