SUBJECT INDEX TO VOLUME 61*
(January-June 2005)

A

Abscess
EUS-guided drainage of hepatic abscess (Seewald et al). 2005;61:495-8 (Brief report)
Successful endoscopic management of a cervical pharyngeal perforation and mediastinal abscess (Hookey et al). 2005;61:158-60 (Case report)
Why did colonic abscess occur? (Matsushita and Okazaki) (Letter); (Chen and Wang) (Response). 2005;61:499

Acquired immunodeficiency syndrome (AIDS)
Endoscopic appearance of GI mycobacteriosis caused by the Mycobacterium avium complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)

Addison disease
Esophageal melanocytosis in the setting of Addison’s disease (Jones et al). 2005;61:485-7 (Brief report)

Adenocarcinoma
Cancer in familial adenomatous polyposis (Uragami et al). 2005;61:104 (At the focal point)
Duodenal fistula (Penner et al). 2005;61:108-9 (At the focal point)
Gastric stump carcinoma (Kimura et al). 2005;61:595 (At the focal point)
Jejunal adenocarcinoma (Hong et al). 2005;61:430-1 (At the focal point)
Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Ciocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2
Signet-ring-cell adenocarcinoma arising from a hyperplastic polyp in the stomach (Fry et al). 2005;61:493-5 (Brief report)

Adenoma
18-Fluorodeoxyglucose positron emission tomography has limited sensitivity for colonic adenoma and early stage colon cancer (Piedrand et al). 2005;61:395-400
Esophageal, submucosal, gland duct adenoma: role of EUS for endoscopic removal (Matsushita and Okazaki) (Letter); (Chinen et al) (Response). 2005;61:790-1
Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Ciocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2
Wire-guided endoscopic snare papillectomy for tumors of the major duodenal papilla (Moon et al). 2005;61:461-6 (New methods)

Adenomatous polyposis coli
Cancer in familial adenomatous polyposis (Uragami et al). 2005;61:104 (At the focal point)

Adenomyoma
Adenomyoma of the minor duodenal papilla (Fukuda et al). 2005;61:475-9 (Case report)

Alcohol-induced disorders
Self-administered alcohol (vodka) enema causing severe colitis: case report and review (Mian et al). 2005;61:922-6 (Brief report)

Allporpurinol

American Society for Gastrointestinal Endoscopy (ASGE); see ASGE guidelines/technology assessments

Anastomosis, surgical
Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)
Treatment of esophageal perforations and anastomotic leaks: the endoscopist is stepping into the arena (Siersma). 2005;61:897-900 (Editorial)

Anesthesiology
Propofol in endoscopy: why higher risk? (Kumar) (Letter). 2005;61:794

Angioneurotic edema
Hereditary angioedema involving the colon: endoscopic appearance and review of GI manifestations (Koruth et al). 2005;61:907-11 (Case report)

Anisakiasis
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005;61:931
Vanishing gastric tumor caused by anisakiasis (Nakanishi et al). 2005;61:102 (At the focal point)

 Appendiceal neoplasms
Left hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Ciocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2

Appendix
Endoscopic visualization of an inverted appendix (Coronel et al). 2005;61:430 (At the focal point)

Appendix cancer in familial adenomatous polyposis (Uragami et al). 2005;61:104 (At the focal point)

Argon plasma coagulation
Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:353-4
Randomized trial of argon plasma coagulation vs. multipolar electrocoagulation for ablation of Barrett’s esophagus (Dula et al). 2005;61:252-60
The better burn (Sampliner). 2005;61:241-2 (Editorial)
Watermelon colon treated by argon plasma coagulation (Chen et al). 2005;61:631-5 (Brief report)

Ascites

ASGE guidelines/technology assessments

Aspiration
Placement of a jejunal enteral tube through a percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-5 (Brief report)

B

Balloon dilatation; see Dilatation

Barium
Dysphagia drives doctors to diagnose: pitfalls in interpreting observational studies (Rubinstein and Inadomi). 2005;61:809-11 (Editorial)

Barrett’s oesophagus
A randomized crossover study comparing light-induced fluorescence endoscopy with standard videocapsule endoscopy for the detection of early neoplasia in Barrett’s oesophagus (Kara et al). 2005;61:671-8
Endoscopic treatment of high-grade dysplasia and early stage cancer in Barrett’s oesophagus (Peters et al). 2005;61:506-14
Endoscopic video autofluorescence imaging may improve the detection of early neoplasia in patients with Barrett’s oesophagus (Kara et al). 2005;61:679-85
Feasibility and safety of string, wireless capsule endoscopy in the diagnosis of Barrett’s oesophagus (Ramirez et al). 2005;61:741-6 (New methods)

*January, pp. 1-188; February, pp. 189-356; March, pp. 357-502; April, pp. 503-642; May, pp. 643-794; June, pp. 795-958.

946 GASTROINTESTINAL ENDOSCOPY Volume 61, No. 7 : 2005 www.mosby.com/gie
Biliary tract

Bile duct obstruction;...
Cholelithiasis; see Common bile duct calculi
Cholelithiasis
Cholecystocholedochal fistula (Nguyen et al). 2005;61:876 (At the focal point)

Cholesterosis
EMR of a hyperplastic polyp arising in ectopic gastric mucosa in the cervical esophagus: case report (Oguma et al). 2005;61:335-8 (Brief report)

Choriocarcinoma
Mantle-cell lymphoma of colon (Kram et al). 2005;61:294-5 (At the focal point)

Chromoscopy

Clips
Fundal varical hemorrhage treated by endoscopic clip (Arantes and Albuquerque). 2005;61:752 (At the focal point)

Colon cancer

Colon cancer prevention trial (Pabby et al). 2005;61:385-91

Colon cancer surveillance in the dietary Polyp Prevention Trial (Froehlich et al). 2005;61:378-84

Colonic polyps
Functional imaging of a colon polyp (Behari et al). 2005;61:733 (At the focal point)

Colonoscopy

A retrospective analysis of colonic barotrauma caused by colonoscopy air flow and pressure (Wöljen). 2005;61:37-45

Predictors of utilization of early colonoscopy vs. radiography for severe lower intestinal bleeding (Strate and Syngal). 2005;61:46-52

Randomized trial of a video headset vs. a conventional video monitor during colonoscopy (Lee et al). 2005;61:301-6 (New methods)

Routine colonoscopy complicated by small-bowel obstruction (Zanati et al). 2005;61:781-3 (Brief report)

ShapeLock: a rapid access port for redeployment of a colonoscope into the proximal colon to facilitate multiple polypectomies in a single session (Raju and Parshica). 2005;61:768-70 (Case report)

Colorectal neoplasms

Effectiveness of glycerol as a submucosal injection for EMR (Uraoka et al). 2005;61:756-40 (New methods)

Common bile duct calculi
Impacted biliary basket (Cid and Lobo). 2005;61:110-11 (At the focal point)

Complications
A retrospective analysis of colonic barotrauma caused by colonoscopy air flow and pressure (Wöljen). 2005;61:37-45

Breakage of disposable biopsy forceps: a rare complication during endoscopy (Yoshikawa et al). 2005;61:918-9 (Brief report)

Cerebral air embolism during upper endoscopy: case report and review (Green and Tendlker). 2005;61:620-3 (Brief report)

Esophageal stricture formation as a complication of cyanoacrylate injection (Wai et al). 2005;61:775-5 (Brief report)

Congenital abnormalities

Endoscopic pyloromyotomy for congenital pyloric stenosis (Marquen-Secchia). 2005;61:598-600 (New methods)

Conscious sedation
From oral midazolam to propofol: a perspective (Geller). 2005;61:201-3 (Editorial)

Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirberg et al). 2005;61:501-2

Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:638-9

Continuing Medical Education Activity
January 2005;61:126-32
February 2005;61:148-52
March 2005;61:444-8
April 2005;61:589-92
May 2005;61:728-31
June 2005;61:871-7

Correspondence; see Letters to the Editor
Credentialing

Cricopharyngeal bar
Effectiveness of esophageal dilation for symptomatic cricopharyngeal bar (Wang et al). 2005;61:148-52 (Case study)

Crohn’s disease
Capsule endoscopy and Crohn’s disease (Cave). 2005;61:262-3 (Editorial)

Diagnosis by EUS trucut biopsy of extrapulmonary tuberculosis in a patient with Crohn’s disease treated with infliximab (Gleeson et al). 2005;61:489-92 (Brief report)

Cutaneous fistula
Colocutaneous fistula caused by a self-expanding metallic stent (Santo-Innocenzo and Ho). 2005;61:633-6 (Brief report)
Entercutaneous fistula complicating a duodenal bezoar: an unusual presentation (Elhaj et al). 2005;61:877-8 (At the focal point)

**Cyanoacrylates**

**D**

**Deglutition disorders**

Overtube-assisted placement of wireless capsule endoscopy device (Quan et al). 2005;61:914-6 (Case report)

**Dexamethasone**

Acute proctosigmoiditis caused by a dexamethasone mouthwash enema (Hill et al). 2005;61:563-70

**Diagnostic imaging; see also specific methods**

**Dysphagia**

Randomized trial of argon plasma coagulation vs. multipolar electrocoagulation for ablation of Barrett's esophagus (Dulai et al). 2005;61:232-40

**Dyes**

**Echo-endoscopy; see Endoscopic ultrasonography (EUS)**

**Edema**

**EUS needle biopsy; see also specific methods**

**EUS-guided fine needle aspiration**

Three brothers with dysphagia caused by eosinophilic esophagitis (Patel and Falshuk). 2005;61:165-7 (Case report)
Embolism, air
Cerebral air embolism during upper endoscopy: case report and review (Green and Tondler). 2005;61:620-3 (Brief report)

Endoscopy
A simple technique for maximal tip deflection of an upper endoscopy (Hisatomi et al.). 2005;61:385-5 (Brief report)
Endoscopic mucosal resection (EMR)
Effectiveness of glycerol as a submucosal injection for EMR (Uraoka et al.). 2005;61:736-40 (New methods)
EMR of a hyperplastic polyp arising in ectopic gastrointestinal mucosa of the cervical esophagus: case report (Oyama et al.). 2005;61:535-8 (Brief report)
Endoscopic resection of Peutz-Jeghers polyps throughout the small intestine at double-balloon enteroscopy without laparotomy (Ohmiya et al.). 2005;61:140-7 (New methods)
Endoscopic treatment of high-grade dysplasia and early stage cancer in Barrett’s esophagus (Petres et al.). 2005;61:506-14
Flat-type primary malignant melanoma of the esophagus treated by EMR: case report (Kimura et al.). 2005;61:787-9 (Brief report)
Endoscopic ultrasonography (EUS)
Age-related changes in the pancreas identified by EUS: a prospective evaluation (Rajan et al.). 2005;61:401-6
Assessment of the impact of an educational course on knowledge of appropriate EUS indications (Harewood et al.). 2005;61:554-9
Atypical EUS features of gastric inflammatory fibroid polyps (Matsuhashita and Okazaki) (Letter); (Aydin et al) (Response). 2005;61:637-8
Diagnosis by EUS: a prospective evaluation (Rajan et al.). 2005;61:416-20
Endoscopic Doppler optical coherence tomography in the human GI tract: initial experience (Yang et al.). 2005;61:879-90 (New methods)
Endoscopic US for metastases to the pancreas: chasing the satellites (Baron). 2005;61:697-9 (Editorial)
Esophageal, submucosal, gland duct adenoma: role of EUS for endoscopic removal (Matsushita and Okazaki) (Letter); (Chinen et al) (Response). 2005;61:790-1
FEUS features of recurrent transitional cell bladder cancer metastatic to the GI tract (Yusuf et al.). 2005;61:314-16 (Case study)
EUS-guided biopsy in the diagnosis of pulmonary lymphoma in a patient with an esophageopulmonary fistula (Storch et al.). 2005;61:904-6 (Case report)
EUS-guided drainage of hepatic abscess (Scewald et al.). 2005;61:495-8 (Brief report)
EUS-guided FNA of solid pancreatic masses: a learning curve with 300 consecutive procedures (Eloubeidi and Tamhane). 2005;61:700-8
EUS-guided Trucut biopsy in establishing autoimmune pancreatitis as the cause of obstructive jaundice (Levy et al.). 2005;61:467-72 (Case study)
Noninvasive vs. selective invasive biliary imaging for acute biliary pancreatitis: an economic evaluation by using decision tree analysis (Romagnuolo and Currie). 2005;61:86-97
Pancreatic FNA in 1000 cases: a comparison of imaging modalities (Velmur et al.). 2005;61:954-61
Prospective evaluation of a jelly-like conducting medium for catheter US probe imaging of esophageal and duodenal lesions (Soon et al.). 2005;61:133-9 (New methods)
The utility of EUS-guided FNA in the diagnosis of metastatic breast cancer to the esophagus and the mediastinum (Sobel et al.). 2005;61:416-20

Endoscopists
Endoscopic simulation: where we have been and where we are going (Sedlack). 2005;61:216-18 (Editorial)
The impact of a hands-on ERCP workshop on clinical practice (Sedlack et al.). 2005;61:67-71
Training with the compactEASIE biologic endoscopy simulator significantly improves hemostatic technical skill of gastroenterology fellows: a randomized controlled comparison with clinical endoscopy training alone (Hochberger et al.). 2005;61:204-15

Endoscopy
Enema
Acute proctosigmoiditis caused by a dexamethasone mouthwash enema (Hill et al.). 2005;61:58-66
Double-balloon enteroscopy as a diagnostic modality for a Meckel’s diverticulum in a patient with GI bleeding of obscure origin (Gasbarrini et al.). 2005;61:779-81 (Brief report)
Endoscopic resection of Peutz-Jeghers polyps throughout the small intestine at double-balloon enteroscopy without laparotomy (Ohmya et al.). 2005;61:140-7 (New methods)
Predictive factors of positive findings in patients explored by push enteroscopy for unexplained GI bleeding (Iepère et al.). 2005;61:709-14
Enteryx
Complications involving the mediastinum after injection of Enteryx for GERD (Wong et al.). 2005;61:735-6 (Case report)
Enteryx implantation for GERD: expanded multicenter trial results and interim postapproval follow-up to 24 months (Cohen et al.). 2005;61:650-8
Eosinophilia
Association of eosinophilic inflammation with esophageal food impaction in adults (Desai et al.). 2005;61:795-801
Eosinophil: the new lord of (eosinophil) rings (Katzka). 2005;61:802-3 (Editorial)
Eosinophilic esophagitis in a father and a daughter (Meyer) (Letter). 2005;61:932
Three brothers with dysphagia caused by eosinophilic esophagitis (Patel and Falchuk). 2005;61:165-7 (Case report)

ERCP, see Cholangiopancreatography, endoscopic retrograde (ERCP)
Endoscopic and gastric varices
A simple technique for maximal tip deflection of an upper endoscopy (Hisatomi et al.). 2005;61:183-5 (Brief report)
Funal variceal hemorrhage treated by endoscopic clip (Arantes and Albuquerque). 2005;61:753 (At the focal point)
Septic complications after variceal cyanoacrylate injection (Yarze) (Letter); (Lammer et al) (Response). 2005;61:186
Esophageal diseases
Desecting intramural hematoma of the esophagus after thrombolysis for myocardial infarction (Huddy et al.). 2005;61:340-3 (Brief report)
Formulas for calculating the depth of insertion for the upper and lower esophageal sphincters (Wilson et al) (Letter). 2005;61:793-4

The frequency of Barrett’s esophagus in high-risk patients with chronic GERD (Westhoff et al). 2005;61:226-31

Esophageal diverticulum

Esophageal fistula
Closure of a benign tracheoesophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)

EUS-guided biopsy in the diagnosis of pulmonary lymphoma in a patient with an esophagopulmonary fistula (Storch et al). 2005;61:504-6 (Case report)

Esophageal neoplasms

Esophagitis, submucosal, gland duct adenoma: role of EUS for endoscopic removal (Matsushita and Okazaki) (Letter); (Chinen et al) (Response). 2005;61:790-1

Flat-type primary malignant melanoma of the esophagus treated by EMR: case report (Kimura et al). 2005;61:787-9 (Brief report)

Giant esophageal papilloma (Odze) (Letter); (Rakich et al) (Response). 2005;61:499-501

Primary esophageal B-cell lymphoma: evaluation of the distal common bile duct, with formation of a retroperitoneal biloma (Takahashi et al). 2005;61:783-7 (Brief report)

Asymptomatic esophageal perforation after foreign-body ingestion (and SilvaAhluwalia) (Letter); (Ristikankare et al) (Response). 2005;61:639-9

The yield and the predictors of esophageal pathology when upper endoscopy is used for the initial evaluation of dysphagia (Varadarajulu). 2005;61:804-8

Esophagastroduodenoscopy (EGD)
A simple technique for maximal tip deflection of an upper endoscopy (Hsiohorri et al). 2005;61:183-5 (Brief report)

Breakage of disposable biopsy forceps: a rare complication during endoscopy (Yoshikawa et al). 2005;61:918-9 (Brief report)

Feasibility and safety of string, wireless capsule endoscopy in the diagnosis of Barrett’s esophagus (Ramairez et al). 2005;61:741-6 (New methods)

Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:639-9

Fibroblast growth factor

Endoscopic US for metastases to the pancreas: chasing the satellites (Baron). 2005;61:697-9 (Editorial)

Endoscopic US of solid pancreatic masses: a learning curve with 300 consecutive procedures (Bloubheid and Tambahane). 2005;61:700-8

Fistula
Bronchoesophageal fistula (Lee et al). 2005;61:289-90 (At the focal point)

Colostocholedochal fistula (Nuygen et al). 2005;61:876 (At the focal point)

Closure of a benign tracheoesophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)

Colocutaneous fistula caused by a self-expanding metallic stent (Sario-Inocencio and Ho). 2005;61:635-6 (Brief report)

Duodenocolic fistula (Penner et al). 2005;61:108-9 (At the focal point)

Enteroatresial fistula complicating a duodenal bezoar: an unusual presentation (Elhaj et al). 2005;61:877-8 (At the focal point)

Gastroduodenal fistula caused by ingested magnets (Ohno et al). 2005;61:109-10 (At the focal point)

Spontaneous rupture of a biliary diverticulum in the distal common bile duct, with formation of a retroperitoneal biloma (Takahashi et al). 2005;61:765-7 (Brief report)

Fluorescence endoscopy
A randomized crossover study comparing light-induced fluorescence endoscopy with standard videocapsule detection for the detection of early neoplasia in Barrett’s esophagus (Kara et al). 2005;61:671-8
Hereditary diseases
Esophageal atresia in a father and a daughter (Meyer) (Letter). 2005;61:952

Herpes simplex
Atypical herpes simplex esophagitis (Wong and Abdul-Karim). 2005;61:291-2 (At the focal point)

Ileocecal valve
Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Ileum
Correlation of endoscopic optical coherence tomography with histology in the lower GI tract (Westphal et al). 2005;61:537-46

Imatinib mesylate
Neoadjuvant therapy with imatinib mesylate for locally advanced GI stromal tumors (Shah et al). 2005;61:625-7 (Brief report)

Infection control
Efficacy of an obturator for reducing the risk of peritoneal infection after PEG placement: a prospective, randomized comparison (Maiani et al). 2005;61:522-7

Infections

Infections, opportunistic
Endoscopic appearance of GI mycobacteriosis caused by the Mycobacterium avium complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)

Inflammatory bowel diseases
Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:357-46

Infliximab
Atypical EUS features of gastric inflammatory fibroid polyps (Matsushita and Okazaki) (Letter); (Aydin et al) (Response). 2005;61:637-8

Endoscopic minor papilla interventions in patients without pancreas divisum (Tarnasky and Lindler) (Letter); (Song et al) (Response). 2005;61:549-50

Endoscopic appearance of GI mycobacteriosis caused by the Mycobacterium avium complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)

Intestinal neoplasms
Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Jejunal adenosarcoma (Hong et al). 2005;61:430-1 (At the focal point)

Intestinal obstruction
Intermittent small-bowel obstruction caused by gastric adenosarcoma in a Meckel's diverticulum (Parente et al). 2005;61:180-3 (Brief report)

Routine colonoscopy complicated by small-bowel obstruction (Zanati et al). 2005;61:781-3 (Brief report)

Intussusception
Colonic intussusception (Urado et al). 2005;61:452 (At the focal point)

Retrgrade intussusception caused by a sigmoid colon tumor: reduction by the use of a transanal drainage tube (Kitahara et al). 2005;61:482-4 (Case report)

Jaundice, obstructive
EUS-guided Trucut biopsy in establishing autoimmune pancreatitis as the cause of obstructive jaundice (Levy et al). 2005;61:467-72 (Case study)

Jejunostomy
Necrotizing fasciitis after direct percutaneous endoscopic jejunostomy (Chong and Delegge). 2005;61:912-3 (Case report)

Placement of a jejunal enteral tube through a percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-3 (Brief report)

Ketamine
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kärberg et al) (Letter). 2005;61:501-2

Lactation

Leiomyoma
Pedunculated leiomyoma (Han et al). 2005;61:429 (At the focal point)

Letters to the Editor
Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:353-4

Necrotizing fasciitis after direct percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-3 (Brief report)

Extensive celiac disease treated with infliximab (Gleeson et al) (Response). 2005;61:757-8

Jewish infantile hypertrophic pyloric stenosis with end-stage liver disease (Conway et al). 2005;61:640-1

Necrotizing fasciitis after direct percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-3 (Brief report)

Ligation
Endoscopic band ligation for rectal variceal bleeding: serial colonoScope images (Soon et al). 2005;61:754-5 (At the focal point)

Lipoma
Detachable nylon loop assisted removal of large clinically significant colonic lipomas (Murray et al). 2005;61:756-9 (Case report)

Gastric submucosal tumor removal (Mah et al). 2005;61:290-1 (At the focal point)

Lithotripsy
Impacted biliary basket (Cid and Lobo). 2005;61:110-11 (At the focal point)

Liver abscess
EUS-guided drainage of hepatic abscess (Seewald et al). 2005;61:495-8 (Brief report)

Livers diseases
Endoscopic stent insertion into the gallbladder for symptomatic gallbladder disease in patients with end-stage liver disease (Conway et al). 2005;61:32-6

Liver neoplasms
A case of mucin hypersecreting intraductal papillary carcinomas occurring simultaneously in liver and pancreas (Tamauchi et al). 2005;61:498-503 (Case report)

Lung neoplasms
EUS-guided biopsy in the diagnosis of pulmonaty lymphoma in patient with an esophageum pulmonary fistula (Storch et al). 2005;61:504-6 (Case report)

Lymphangioma

Lymphatic diseases

Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:605-9 (Case report)

Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)

Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:605-9 (Case report)

Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)

Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:605-9 (Case report)

Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)

Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:605-9 (Case report)

Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)

Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:605-9 (Case report)

Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)

Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)

Parasitic diseases
Pancreatitis

Premedication with orally administered midazolam
Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy

Biliary fascioliasis (Cheung et al). 2005;61:596-7
Giant esophageal papilloma (Odze) (Letter); (Sai et al). 2005;61:264-8

Endoscopic minor papilla interventions in patients without pancreas divisum (Tarrasky and Linder) (Letter), (Song et al) (Response).

Endoscopic therapy for pain in chronic pancreatitis: is it time for the nayayers to throw in the towel? (Wilcox). 2005;61:582-6 (Editorial)
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirsch et al) (Letter). 2005;61:501-2
Pancreas divisum as the etiology of acute pancreatitis: an economic evaluation by decision tree analysis (Levy et al). 2005;61:467-72 (Case study)

Noninvasive vs. selective invasive biliary imaging for acute biliary pancreatitis: an economic evaluation by using decision tree analysis (Romagnano and Cartie). 2005;61:86-97
Pancreas divisum as the etiology of acute pancreatitis in children (DeBasto) (Letter), (Klein and Affronti) (Response). 2005;61:637
Predictors of outcome in pancreatic duct disruption managed by endoscopic transpapillary stent placement (Varadarajulu et al). 2005;61:568-75
Successful treatment for groove pancreatitis by endoscopic drainage via the minor papilla (Iyama et al). 2005;61:175-8 (Case report)
Why do pancreatic stents become occluded? (Devire) 2005;61:867-8 (Editorial)
Papilloma

Giant esophagael papilloma (Odze) (Letter); (Eguchi et al) (Response). 2005;61:499-501
Parasitic diseases

Biliary fascioliasis (Cheung et al). 2005;61:596-7 (At the focal point)
Sero logic test for the diagnosis of subclinical gast ritis anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005;61:931
Vanishing gastric tumor caused by anisakiasis (Nakanishi et al). 2005;61:102 (At the focal point)

Patient comfort

Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:638-9

Pediatric gastroenterology
Endoscopic pylonromyotomy for congenital pyloric stenosis (Iharguen-Seccchia). 2005;61:598-600 (New methods)
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirsch et al) (Letter). 2005;61:501-2
Pancreas divisum as the etiology of acute pancreatitis in children (DeBasto) (Letter), (Klein and Affronti) (Response). 2005;61:637
PEG; see Gastrostomy, percutaneous endoscopic (PEG)

Perforation
A retrospective analysis of cecal barotrauma caused by colonoscopy air flow and pressure (Woljen). 2005;61:37-45
Asymptomatic esophageal perforation after foreign body ingestion (and SilvaAhluwalia). 2005;61:615-19 (Case report)
Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)
Esophageal perforation by cervical fixation device (Lee et al). 2005;61:295 (At the focal point)
Esophageal sinus formation as a complication of cryoacrylate injection (Wai et al). 2005;61:775-5 (Brief report)
Gastro duodenal perforation and anastomotic leaks: the endoscopist is stepping into the arena (Siebersema). 2005;61:897-900 (Editorial)

Pericarditis

Personnel staffing and scheduling
A prospective study of factors that determine cecal intubation time at colonoscopy (Bernstein et al). 2005;61:72-5

Peutz-Jeghers syndrome
Endoscopic resection of Peutz-Jeghers polyps throughout the small intestine at double-balloon enteroscopy without laparotomy (Ohmiya et al). 2005;61:140-7 (New methods)
P h ph10roni
Formulas for calculating the depth of insertion of the upper and lower esophageal sphincters (Wilson et al) (Letter). 2005;61:793-4
Severe chest pain from an indwelling Bravo pH probe (Triester et al). 2005;61:317-19 (Case report)

Photoraphy
Use of a transparent hood to facilitate photodynamic therapy of esophageal neoplasms (Aydin) (Letter). 2005;61:350

Plasmodiaplasma
Hysterectomy (Okamura et al). 2005;61:107-8 (At the focal point)
Platelet aggregation inhibitors

Polypetctomy
What do we really know about the long-term safety of colonic tattooing? (Hellmig et al) (Letter). 2005;61:186-7

Polyps
Bleeding polyp in the mid small intestine identified by capsule endoscopy and treated by double-balloon endoscopy (Kita et al). 2005;61:628-9 (Brief report)
Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Estehan et al). 2005;61:928-30 (Brief report)
EMR of a hyperplastic polyph arising in ectopic gastric mucosa in the cervical esophagus: case report (Oguma et al). 2005;61:335-8 (Brief report)
Pedunculated cap polyps preceding the development of cap polyposis: case report (Chinen et al). 2005;61:538-40 (Brief report)
Signet-ring cell adenocarcinoma arising from a hyperplastic polyph in the stomach (Fry et al). 2005;61:493-5 (Brief report)

Portal vein

Precancerous conditions
Precancerous mucosal changes in the gallbladder of patients with occult pancreaticobiliary reflex (Sai et al). 2005;61:264-8

Pregnancy
Safety and efficacy of ERC on pregnancy (Duseja et al) (Letter); (Kahaleh et al) (Response). 2005;61:352-3

Proctitis
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)

Proctocolitis
Acute proctogrilomatis caused by a desametha sone mouthwash enema (Hill et al). 2005;61:124-14 (Case report)
Protopofol
From oral midazolam to protopofol: a perspective (Geller). 2005;61:2013 (Editorial)

Protopofol in endoscopy: why higher risk? (Kumar) (Letter). 2005;61:794

Pyloric stenosis

Endoscopic pyloromyotomy for congenital pyloric stenosis (Ishigami-Secchia). 2005;61:598-600 (New methods)

Quality of life

Enterxy implantation for GERD: expanded multi-center trial results and interim postapproval follow-up to 24 months (Cohen et al). 2005;61:650-8

Radiography
Predictors of utilization of early colonoscopy vs. radiography for severe lower intestinal bleeding (Scharte and Syngal). 2005;61:46-52

Radiotherapy
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)

Successful recanalization of a completely obliterated esophageal stricture by using an endoscopic rendezvous maneuver (Baungart et al). 2005;61:473-5 (Case report)

Rectal diseases
Endoscopic band ligation for rectal variceal bleeding: serial colonoscopic images (Soon et al). 2005;61:734-5 (At the focal point)

R

Safety

Sclerotherapy

Screening; see Mass screening

Sedation; see Conscious sedation

Sepsis

Serologic tests
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsumita and Okazaki) (Letter), (Shiomi et al) (Response). 2005;61:951

Simulation
Endoscopic simulation: where we have been and where we are going (Seidlack). 2005;61:216-18 (Editorial)

Training with the compactEASIE biologic endoscopy simulator significantly improves hemostatic technical skill of gastroenterology fellows: a randomized controlled comparison with clinical endoscopy training alone (Ivchberger et al). 2005;61:204-15

Small intestine; see also Duodenum; ileum

Specialists
Gastroenterologists as surgeons: what they need to know (Ponsky). 2005;61:454 (Editorial)

Sphincterotomy, endoscopic
Post-sphincterotomy bleeding after the introduction of microprocessor-controlled electrosurgery: does the new technology make the difference? (Perini et al). 2005;61:53-7

Spleninfarction

Stent migration
Removal of a gastroplasty ring (Hooker et al). 2005;61:594 (At the focal point)

Stents
Closure of a benign tracheosophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)

Colocutaneous fistula caused by a self-expanding metallic stent (Santo-Inocencio and Ho). 2005;61:653-6 (Brief report)

Composition of clogging material in pancreatic endoprostheses (Farrinbacher et al). 2005;61:862-6

Efficacy and complications of covered Wallstents (Ponsky). 2005;61:576-81

Efficacy of main pancreatic-duct endoscopic drainage in patients with chronic pancreatitis, continuous pain, and dilated duct (Gabbrielli et al). 2005;61:576-81

Endoscopic stent insertion into the gallbladder for symptomatic gallbladder disease in patients with end-stage liver disease (Conway et al). 2005;61:32-6

Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)

Endoscopy or surgery for malignant GI outlet obstruction (Del Piana et al). 2005;61:421-6

Gastric stump carcinoma (Kimura et al). 2005;61:595 (At the focal point)

Gastric submucosal tumor removal (Mah et al). 2005;61:290-1 (At the focal point)

Intermittent small-bowel obstruction caused by gastric adenocarcinoma in a Meckel’s diverticulum (Parente et al). 2005;61:180-3 (Brief report)

Signet-ring-cell adenocarcinoma arising from a hyperplastic polyp in the stomach (Fry et al). 2005;61:493-5 (Brief report)

The optimal age threshold for screening upper endoscopy for uninvestigated dyspepsia in Taiwan, an area with a higher prevalence of gastric cancer in young adults (Liu et al). 2005;61:819-25

Visible endoscopic and histologic changes in the cardia, before and after complete Barrett’s esophogas alation (Winston et al). 2005;61:515-21

Strictures/stenoses

Successful recanalization of a completely obliterated esophageal stricture by using an endoscopic rendezvous maneuver (Baungart et al). 2005;61:473-5 (Case report)

Surgical procedures, minimally invasive

Gastroenterologists as surgeons: what they need to know (Ponsky). 2005;61:454 (Editorial)

Tattooing
What do we really know about the long-term safety of colonic tattooing? (Hellmig et al) (Letter). 2005;61:186-7

Thermocoagulation
Visible endoscopic and histologic changes in the cardia, before and after complete Barrett’s esophagus ablation (Weston et al). 2005;61:515-21

Thrombolytic therapy
Dissecting intramural hematoma of the esophagus after thrombolysis for myocardial infarction (Huddy et al). 2005;61:340-3 (Brief report)

Tomography
Correlation of endoscopic optical coherence tomography with histology in the lower-GI tract (Westphal et al). 2005;61:537-46
18-Fluorodeoxyglucose positron emission tomography has limited sensitivity for colonic adenoma and early stage colon cancer (Friedland et al). 2005;61:395-400
Endoscopic Doppler optical coherence tomography in the human GI tract: initial experience (Bechara et al). 2005;61:733 (At the focal point)

Transplantation
Posttransplantation lymphoproliferative disorder (Anantharaju et al). 2005;61:288-9 (At the focal point)

Trauma

Tuberculosis
Diagnosis by EUS Trucut biopsy of extrapulmonary tuberculosis in a patient with Crohn’s disease treated with infliximab (Gleeson et al). 2005;61:489-92 (Brief report)

Gastric tuberculosis presenting as a submucosal tumor (Kim et al). 2005;61:319-22 (Case report)

U

Ulcer
Gastric ulceration and perforation as a complication of a left ventricular assist device (Hou et al). 2005;61:629-31 (Brief report)

Ultrasonography; see Endoscopic ultrasonography (EUS)

Ultrasonography, Doppler

V

Varices; see Esophageal and gastric varices
Vater’s ampulla; see Duodenal Papilla, Major

Video endoscopy; see also Capsule endoscopy
A randomized crossover study comparing light-induced fluorescence endoscopy with standard videocaps endoscopy for the detection of early neoplasia in Barrett’s esophagus (Kara et al). 2005;61:671-8

Autofluorescence imaging: have we finally seen the light? (Wang and Triadafilopoulos). 2005;61:686-8 (Editorial)
Endoscopic video autofluorescence imaging may improve the detection of early neoplasia in patients with Barrett’s esophagus (Kara et al). 2005;61:679-85

Image documentation of endoscopic findings in ulcerative colitis: photographs or video clips? (de Lange et al). 2005;61:715-20

Randomized trial of a video headset vs. a conventional video monitor during colonoscopy (Lee et al). 2005;61:301-6 (New methods)

von Willebrand’s disease

Z

Zenker diverticulum
Successful endoscopic management of a cervical pharyngeal perforation and mediastinal abscess (Hookey et al). 2005;61:158-60 (Case report)
