
IN UPCOMING ISSUES...

ARTIFICIAL INTELLIGENCE

- Novel “resect and analysis” approach for T2 colorectal cancer with use of artificial intelligence
- Identification of upper GI diseases during screening gastroscopy through deep convolutional neural network algorithm

COVID-19

- Risk-based decision making related to preprocedural COVID-19 testing in the setting of GI endoscopy: management of risks, evidence, and behavioral health economics
- Aerosol and droplet generation in upper and lower GI endoscopy: whole procedure and event-based analysis
- Biopsy channel of the endoscope as a potential source of infectious droplets during GI endoscopy

DUODENOSCOPES

- Bacterial contamination and organic residue after reprocessing in duodenoscopes with disposable distal caps compared to duodenoscopes with fixed distal caps: a randomized trial

ENDOSCOPIC GASTROJEJUNOSTOMY

- Evaluation of endoscopic gastrojejunostomy revision following Roux-en-Y gastric bypass for treatment of dumping syndrome
- *Editorial*: “Fast and furious”: endoscopic gastrojejunostomy revision for treatment of dumping syndrome

ENDOSCOPIC RESECTION

- Cap-assisted endoscopic mucosal resection versus standard inject-and-cut endoscopic mucosal resection for large colonic laterally spreading tumor treatment: a randomized multicenter study (with video)
- Endoscopic resection of upper GI extraluminal tumors (with videos)
- Assessment of submucosal distortion and mass effect seen at follow-up after colorectal endoscopic mucosal resection with ORISE (with video)
- *Editorial*: Edge of uncertainty: won't get fooled again

ENDOSCOPIC SUTURING

- Comparison of no stent fixation, endoscopic suturing, and novel over-the-scope clip for stent fixation in preventing migration of fully covered self-expanding metal stents: a retrospective comparative study (with video)
- Endoscopic suturing for GI applications: initial results from a prospective multicenter European registry

ERCP

- A comparison of technical failures and patient-related adverse events associated with 3 widely used mechanical lithotripters for ERCP: insights from the FDA Manufacturer and User Facility Device Experience (MAUDE) database

EUS

- EUS-directed transgastric interventions in Roux-En-Y gastric bypass anatomy: a multicenter experience
- Improving diagnostic accuracy and appropriate indications for surgery in pancreatic cystic neoplasms: the role of EUS

POLYPS

- Endoscopic mucosal resection combined with hybrid argon plasma coagulation to prevent recurrence of large nonpedunculated colorectal polyps (with video)
- Comparison of cold snare and hot snare polypectomy for resection of sporadic nonampullary duodenal adenomas

TOP TIPS

- Top tips for endoscopic drainage and debridement of walled-off pancreatic necrosis (with videos)
